

The Revolution of 832

Hello

my name is Jamar. According to the Gregorian Calendar I am 26 years old.

and I have written this book that I would like to release in my community.

It is my believe that this work will bring about a total change in the community as it relates to -self-esteem if this book is received in a effective way

The title of this work is “the revolution of 8532.”

This particular version of the book is one of three books in a series titled “the revolution of 8532.” this particular book is the “Illustrated Draft” of the main book of the same title.

In this illustrated version; you will find symbolisms and colors depicting; the context of the principles listed in the book.

Those principles being; self-sufficiency, unity, sacrifice, love, forgiveness, freedom, truth, & empathy.

It is a fact that in so-called communities where the people identify as black, or African-American, or Negro there is a prevalence of low self-esteem. This low self-esteem is identified in the actions of; lying, cheating, stealing, robbing, raping, murdering, and distrust. as well as Deceit....

Money is over-valued. There are Things in Which Money Cannot Buy. That a Person Will Trade for Money, which you can buy. This phenomenon of trading one values or compartmentalizing one principles for the sake of economic benefit; has reached a point whereas; the children of our nation have begun: to View the American Dollar as the most important measure of success and achievement As a person. Not Family Not Community Not Country; But Self Gratification through the vessel of fiat.

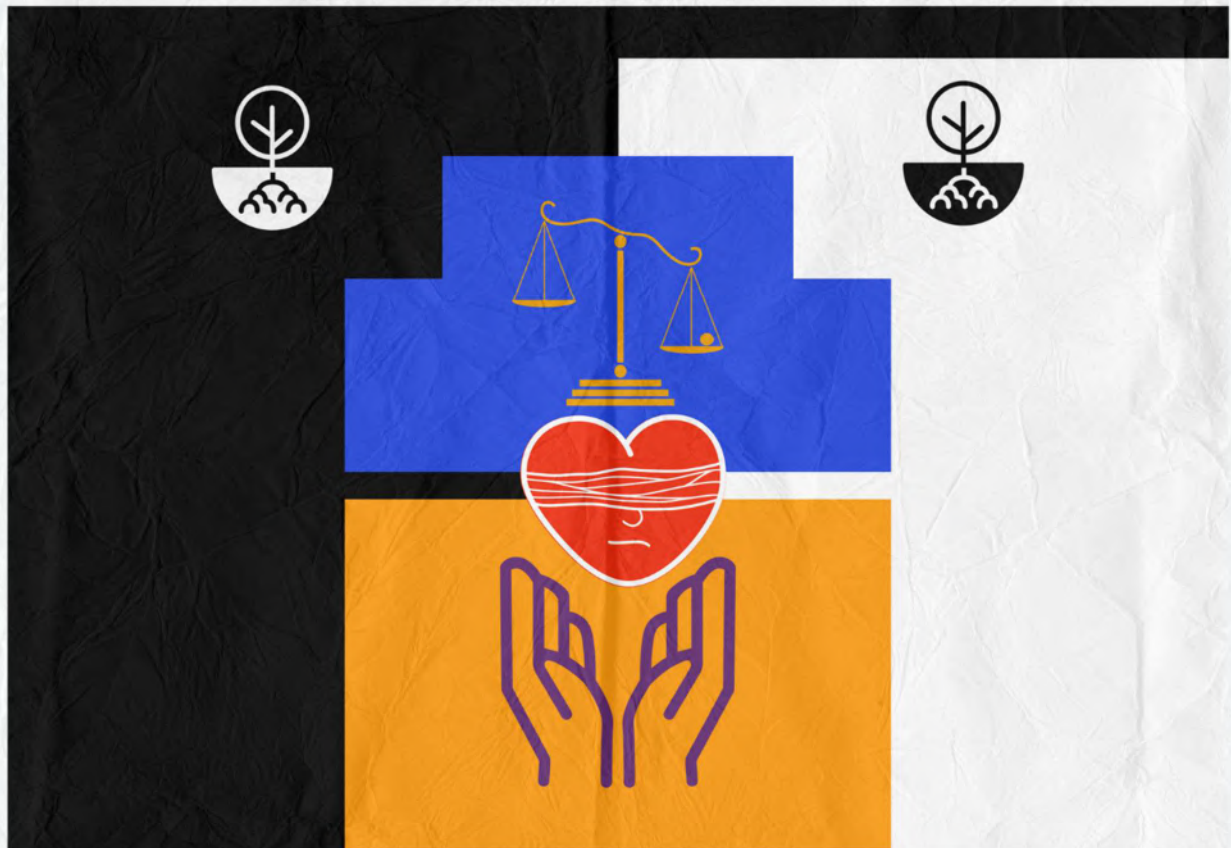

however, with the tools of this book our Coomunity CAN be restored!
